

NEW VISITATION LEVELS

Effective October 22, 2021, Southwell Facilities are at Level Yellow for visitation. Visitation will remain restricted for COVID-19 positive patients and patients suspected of COVID-19 unless an exception is granted by the provider.

To protect our patients, staff, and community during the outbreak of COVID-19, visitor restrictions are in effect for Southwell Facilities: Tift Regional Medical Center, Southwell Medical, Southwell Health and Rehabilitation, and all clinics and departments of these facilities.

We are using four new visitation levels — yellow, orange, red and purple — to protect our patients and caregivers and limit the spread of COVID-19. The visitation levels are based on data about how COVID-19 is spreading, including state and county public health information. Thank you for your understanding. Exceptions to visitation are at the discretion of the provider.

Communicating with Families

Southwell Facilities recognize that support from friends and family can play a positive role in the healing process. Even when you can't visit in person, we encourage you to stay connected virtually. We ask our patients and families to partner with our healthcare professionals.

For our patients who are able to communicate for themselves and make decisions, we ask that the patient contact their loved ones directly with his or her progress toward recovery. **For our patients who need assistance or cannot communicate for themselves**, our team of healthcare professionals will contact the patient's next of kin or emergency contact to give information and updates. We ask that this designated contact share the updates with other family members.

To reach a patient advocate, please call our Healthcare Concierge at (229) 353-CARE.

PLEASE NOTE: All visitors must wear a mask, participate in the required screening process and sanitize their hands. Visitation guidelines are subject to change if safe physical distancing isn't possible.

LEVEL ORANGE		COVID-19 POSITIVE Patients (PPE provided)	COVID-19 NEGATIVE Patients
ADULT PATIENTS			
	Hospitalized patients	No visitors	One designated visitor*
	Appointments and procedures (without a hospital stay including clinic visits)	No visitors	One visitor* Minor children of an adult patient allowed at clinic visits
	Emergency Department	No visitors	One visitor* Visitors may switch out
	Prenatal Appointments	No visitors	One visitor* Minor children of an adult patient allowed at clinic visits
	Labor and Delivery	Two designated visitors*	Two designated visitors*
PEDIATRIC PATIENTS			
	Appointments, procedures and hospitalizations	One designated parent or guardian	Two designated parents or guardians
	Emergency Department	One designated parent or guardian	One visitor* Visitors may switch out

PLEASE NOTE: A patient's provider may make compassionate exceptions, when appropriate. For patients receiving joint procedures, one designated coach may stay overnight.

* Patients may choose one individual (18 or older) to be their designated visitor. That designated visitor may visit each day during the patient's hospital stay.

If a visitation exception exists, the visitor/patient must meet the following requirements:

- The visitor remains in the patient's room for the duration of the visit except when obtaining nourishment from cafeteria.
- The patient is not a Person Under investigation (PUI) or COVID-19 positive (unless at end of life).
- Once a visitor leaves the building, he/she may not return for visitation.

Note: Additional restrictions and/or different level visitation may apply to specific units, clinics or departments.
