**TIFT REGIONAL MEDICAL CENTER
SOUTHWELL MEDICAL**

September 2024

CHNA IMPLEMENTATION STRATEGY

FY 2024-2027

Southwell is a leading healthcare provider serving 14 counties in South Central Georgia. Southwell facilities include Tift Regional Medical Center, Southwell Medical, Southwell Health and Rehabilitation, and all facilities and clinics owned by Tift Regional Health System, Inc. or Southwell Ambulatory, Inc.

Mission Statement. Our mission is to deliver a lifetime of quality and compassionate care for each patient we serve.

Vision Statement. Our vision is to be the system of choice for exceptional, patient-centered health care in every community we serve.

Action Plan. This implementation strategy report summarizes the plans for Tift Regional Medical Center and Southwell Medical to sustain and develop community benefit programs that address the top four prioritized needs identified in the FY 2024 Community Health Needs Assessment (CHNA). Additional strategies may be added to this plan as opportunities arise over the next three years.

Counties Impacted. While Southwell has a three-county Primary Service Area (PSA) and an 11-county Secondary Service Area (SSA), this implementation strategy will focus mainly on the counties in the PSA. The PSA includes Tift, Turner, and Cook counties. Since Southwell has hospital facilities in Tift County (Tift Regional Medical Center) and Cook County (Southwell Medical), these PSA counties provide the largest draw for Southwell in terms of patient origin. This implementation strategy focus on the PSA will provide the most impact on the top four community health needs identified in the CHNA, creating a ripple effect which will result in benefits for the SSA counties as well:

Primary Service Area Counties with Southwell Services	Secondary Service Area Counties with Southwell Services	Secondary Service Area Counties without Southwell Services
<ul style="list-style-type: none"> • Tift (hospital, clinic and outpatient services) • Cook (hospital, skilled nursing, clinic and outpatient services) • Turner (clinic services) 	<ul style="list-style-type: none"> • Worth (clinic services) • Colquitt (clinic services) • Lowndes (clinic services) • Berrien (clinic services) • Irwin (clinic services) 	<ul style="list-style-type: none"> • Ben Hill • Brooks • Atkinson • Coffee • Wilcox • Crisp

Approval. The Southwell, Inc. Board of Directors and Tift Regional Health System, Inc. Board of Directors approved this Implementation Strategy through board votes on September 17, 2024. The Implementation Strategy was presented to the boards by Dr. Cameron Nixon, Chief Transformation Officer, and Chris Efaw, Vice President, Marketing and Communications.

TOP FOUR PRIORITIZED NEEDS

Below is a listing of the top four prioritized needs identified for both TRMC and Southwell. The identified needs are the same for each hospital, with the rankings slightly different for Southwell Medical.

The methodology used by an independent consulting group for identifying the prioritized needs included a community survey, a Medical Staff survey, focus groups, interviews with stakeholders, the formation of a CHNA Advisory Committee, data analysis, and other secondary research. Please see the full CHNA report for more detailed information.

Health Needs		
1	BEHAVIORAL HEALTH	<ul style="list-style-type: none"> • Counseling services for mental health issues such as depression, anxiety, and others for adolescents/children. • Coordination of emergency mental health services with other regional providers and resources. • Counseling services for mental health issues such as depression, anxiety, suicidal thinking, anger management, and others for adults. • Drug and other substance abuse treatment and rehabilitation services, including detox. • Drug and other substance abuse education, prevention, and early intervention services.
2	TRANSPORTATION	<ul style="list-style-type: none"> • Availability, quality, and consistency of transportation services for people needing to access to primary care or to go to doctor's appointments or the hospital.
3	CARE COORDINATION	<ul style="list-style-type: none"> • Case workers or "navigators" for people with chronic diseases such as diabetes, cancer, asthma, and others. • Services to help people learn about, and enroll in, programs that provide financial support for people needing healthcare. • Coordination of patient care between the hospital and other clinics, private doctors, or other health service providers.
4	BASIC NEEDS	<ul style="list-style-type: none"> • Programs for obesity prevention, awareness, and care. • Secure sources for affordable, nutritious food.

Needs not addressed in the CHNA implementation plan. Many other issues were discussed and prioritized by the CHNA Advisory Committee and Southwell staff members, but none scored as highly as the priorities that were ultimately chosen.

COMMUNITY WORK PLAN

Health Need	
1	BEHAVIORAL HEALTH
Outcome Objective (Anticipated Impact)	
<ul style="list-style-type: none"> To contribute to the further development of a community-based behavioral health system that supports prevention, resiliency, and recovery. 	
Implementation Strategy	
<ul style="list-style-type: none"> Continue to provide a psychiatrist to serve as system medical director for Southwell’s Behavioral Health Department and recruit advanced practice providers and licensed clinical social workers as needed.
